The Westin Kierland Resort and Spa
Scottsdale, Arizona

Course Directors:
Ruben A. Mesa, M.D.
Joseph R. Mikhael, M.D.
Donald W. Northfelt, M.D.

GENERAL INFORMATION

Living with and Overcoming My Cancer: A Mayo Clinic Symposium for Patients and Their Loved Ones is for patients and family members that have been cured or who are currently fighting cancers of all types. An internationally renowned group of speakers have been organized to accomplish two main goals. The first goal is to provide comprehensive patient friendly information on the diagnosis and treatment of cancer with specific breakout sessions regarding:

- Breast Cancer
- Prostate Cancer
- Lung Cancers
- Colorectal Cancer
- Lymphoma
- Acute Leukemias
- Myeloproliferative Disorders (MPDs)
- Myelodysplastic Syndrome (MDS)
- Chronic Lymphocytic Leukemia (CLL)
- Myeloma and Amyloidosis

In addition, this course will provide attendees information on many shared issues between patients and family members with cancer. This conference will address many unmet needs that patients and their loved ones have but are rarely discussed in the exam room. This information is crucial for people who are suffering from these diseases or have been cured.

Making Sense of Chemotherapy and Radiation Therapy

What is the Future of Cancer Care?

What is the Role of Alternative Medicines and Interventions?

Is My Cancer Inherited, Or Can I Pass It On To My Children?

What Should I be Eating?

Employment Issues When I Have Cancer

What Are My Legal Rights As A Cancer Patient?

Insurance Issues When I Have Cancer

Financial Planning When Ill

Exercise and Healing

Spirituality and My Cancer

Challenges and Opportunities in Intimacy

Communication With Loved Ones and Your Medical Team

This broad based symposium for cancer patients will provide a unique opportunity for beneficial dialog between patients, their family members and a range of thought leaders across the nation.
