

Perioperative Department (Operating Room) Nursing at Mayo Clinic in Florida

Surgical Services provides surgical and procedural care to patients age 12 and older. Service specialty surgeons perform multiservice procedures. The team of surgeons is assisted by skilled allied health staff.

Operating rooms are staffed 24 hours a day, with teams on call for cardiovascular surgery, neurosurgery and transplant surgery. A general call team covers all other specialties.

Details

- Staff membership on department committees.
- Teaching and academic center for nurses, medical students, interns, residents and fellows.
- Staff includes a team of **RNs, surgical technicians, patient care technicians, attendant aides, unit secretaries and material support personnel.**
