

Monday Morning Session – 8:00am – 9:45am

What sector of the Health Care Industry would you say that you represent?

1. Patient Advocate

2. Health Care Provider

3. Employer

4. Insurer

5. Health Care Organization

6. Government

7. Student

From your perspective, which of the following issues should be addressed first?

1. Lack of system-wide efficient business practices

2. Insufficient use of information technology

3. Lack of sufficient patient involvement in treatment decision

4. Lack of evidence-based medicine

5. High cost of care with insufficient transparency

Select the most achievable solution to Lack of system-wide efficient business practices.

1. Integrated group practice

2. Pay for performance / quality

3. Systems engineering

4. Health care federal reserve model

5. Pilots

6. Financing

7. Document business case for quality

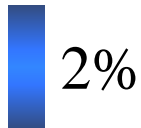

Select the most achievable solution to High cost of care with insufficient transparency.

- 1. Establish a nat'l body to collect & report outcomes / cost info**
 21%
- 2. Educate & motivate consumers to use reported info**
 11%
- 3. Identify top 100 medical diagnoses, services, measures & cost/publish data**
 15%
- 4. Results-based reimbursement, with patient component to incentive plan**
 38%
- 5. Facilitate provider/employer collaboration; fixed-cost packages**
 8%
- 6. One reimbursement fee schedule phased in over a few years**
 7%

Select the most achievable solution to Lack of evidence-based medicine.

1. Support accumulation of much more evidence-based medicine

2. Create clearinghouse (including health care IT) to disseminate evidence-based medicine

3. Create financial incentives, liability waivers and transparency to consumers, insurers, providers to use evidence-based medicine

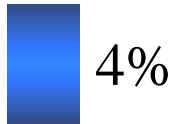

Monday Morning Session – 10:00am – 11:30am

Which scenario best illustrates your perception on the issues related to the sharing of scientific knowledge in medicine today?

1. Scenario 1 "It's here some where"

2. Scenario 2 "Who's the physician"

3. Scenario 3 "Second Opinion" (Patient story)

Who's in the best position to affect change in the sharing of scientific knowledge?

1. Patient

1%

2. Provider

26%

3. Media

1%

4. Professional Societies

17%

5. All of the above

55%

With respect to scientific knowledge, identify the most significant barrier in communicating the knowledge between users:

1. Peer to peer (physician to physician) issues

2. Physician to patient issues

3. Technology and access issues

Do financial and competitive edge issues prevent or dissuade you from sharing new scientific knowledge?

1. Frequently

2. Sometimes

3. Rarely

4. Never

Select the top action item from the perspective of the patient.

1. **Accept personal responsibility for health mgmt with provider** 28%
2. **Creater personal responsiblility contract that links incentives with compliance** 26%
3. **Be engaged and honest with your provider** 6%
4. **Keep track of your personal health record** 6%
5. **Create collaborative learning environment for patients and providers** 9%
6. **Involve patient advocates/stakeholders in decisions making process** 9%
7. **Secure internet interaction with provider before patient visit** 6%
8. **Patients should carry transportable brief medical record** 10%

Select the top action item from the perspective of providers.

1. Use computer programs to provide initial, uniform medical content
7%
2. Create a culture that provides collaborative support
9%
3. Incentives/time for CME; rigorous credentialing using outcomes data
9%
4. Change training to be patient centered, team based
19%
5. More transparency in care system, learn from practice variations
16%
6. National, common, codified terminology (IT) supporting care guidelines
7%
7. Acceptance of standard practices in the interest of quality/safety
17%
8. Fund combined web-based resource for current guidelines/education
13%
9. Major Med Ctrs share cost of knowledge dissemination
3%

Select the top action item from the perspective of the media.

- 1. Educate patients about how to ask the right questions to physicians**
14%
- 2. Broadly communicate info on clinical trials, safety, quality and cost**
34%
- 3. Provide web-based personalized medical info, validated by medical professionals**
14%
- 4. Rely more on medical professionals to ensure accuracy of medical info (incent report on accuracy of info)**
14%
- 5. Enhance oversight and guidelines on direct to consumer ads (ie - drugs)**
11%
- 6. Paid advertising for website that would have patient and provider "seal of approval" on latest health info**
13%

Monday Session – 2:00pm – 3:30pm

Before Questions

Should we cover the uninsured and underinsured:

- 1. All at once**
- 2. In preplanned stages**
- 3. In groups as feasible**
- 4. Never**

Should the U.S. raise taxes to pay for expanding coverage?

1. Yes

2. No

What kinds of mandates for insurance coverage should be enacted?

- 1. Require employers to provide insurance**
- 2. Require individuals to have health insurance and provide subsidies for those who can't afford it**
- 3. Coverage should not be mandated**

Rank the following revenue sources in terms of political viability:

(First selection – most politically viable, Last selection – least viable)

- 1. Savings from eliminating waste and inefficiency**
- 2. Reduced uncompensated care costs**
- 3. Payroll tax**
- 4. Income tax**
- 5. Value added tax**
- 6. Health insurance premium tax**
- 7. Pollution tax**

*After Questions,
then the Comparison*

On a scale from 1 to 5, rate your opportunities to participate in today's discussions:

Thank you.

*Please select in the order of your interest.
(First selection being most interested,
last selection being least interested.)*

- 1. Equity, especially the plight of the uninsured or underinsured**
- 2. Efficiency and the best use of resources**
- 3. Effectiveness, including how to provide care based on scientific knowledge**

Thank you.

NATIONAL SYMPOSIUM ON HEALTH CARE REFORM

Hosted by:

Mayo Clinic • Rochester, Minnesota

May 21 – 23, 2006
