

**Peds QL 4.0 Generic core scales for children after cone reconstruction, healthy children and children with a chronic health condition**

<b>Patient self-report</b>	<b>Cone reconstruction</b>	<b>Healthy sample</b>	<b>Chronic health condition*</b>	<b><i>p</i> value**</b>	<b><i>p</i> value***</b>
<b>Total score</b>	85.57 (14.58)	83.91 (12.47)	74.16 (15.38)	<i>p</i> = 0.22	<i>p</i> < 0.01
<b>Physical</b>	87.57 (14.94)	87.71 (13.12)	79.47 (17.01)	<i>p</i> = 0.42	<i>p</i> < 0.01
<b>Psychosocial</b>	84.24 (18.33)	81.83 (13.97)	71.32 (17.13)	<i>p</i> = 0.11	<i>p</i> < 0.01
<b>Emotional</b>	80.68 (22.29)	79.21 (18.02)	69.32 (21.36)	<i>p</i> = 0.35	<i>p</i> < 0.01
<b>Social</b>	87.88 (13.78)	84.97 (16.71)	76.36 (21.57)	<i>p</i> = 0.01	<i>p</i> < 0.01
<b>School</b>	82.97 (18.33)	81.31 (16.09)	68.27 (19.05)	<i>p</i> = 0.08	<i>p</i> < 0.01

<b>Parent proxy report</b>	<b>Cone reconstruction</b>	<b>Healthy sample</b>	<b>Chronic health condition</b>	<b><i>p</i> value**</b>	<b><i>p</i> value***</b>
<b>Total score</b>	81.85 (15.26)	82.29 (15.55)	73.14 (16.46)	<i>p</i> = 0.75	<i>p</i> < 0.01
<b>Physical</b>	86.57 (16.16)	84.08 (19.70)	76.99 (20.20)	<i>p</i> = 0.03	<i>p</i> < 0.01
<b>Psychosocial</b>	79.27 (16.46)	81.24 (15.34)	71.04 (17.32)	<i>p</i> = 0.58	<i>p</i> < 0.01
<b>Emotional</b>	77.55 (21.43)	81.20 (16.40)	71.08 (19.75)	<i>p</i> = 0.24	<i>p</i> = 0.02
<b>Social</b>	82.45 (17.86)	83.05 (19.66)	75.06 (21.75)	<i>p</i> = 0.93	<i>p</i> = 0.02
<b>School</b>	77.80 (20.76)	78.27 (19.64)	65.58 (20.75)	<i>p</i> = 0.91	<i>p</i> < 0.01

\* Children with asthma, diabetes, attention-deficit/hyperactivity disorder (ADHD), depression or “other”

\*\* *P* value comparing cone reconstruction cohort to healthy control cohort

\*\*\* *P* value comparing cone reconstruction and children with chronic health conditions

A table of quality of life (QL) measures of Mayo Clinic pediatric patients with Ebstein anomaly, published in 2019, includes patients treated with cone reconstruction from 2007 to 2016.

Modified and based on Mayo Clinic data reported in *Cardiology in the Young*.
