

Neurosciences Physician Update

March 2023

Strengthening bone before complex spinal surgery

Patient Care

Program offers fertility preservation to selected pediatric patients with brain tumors

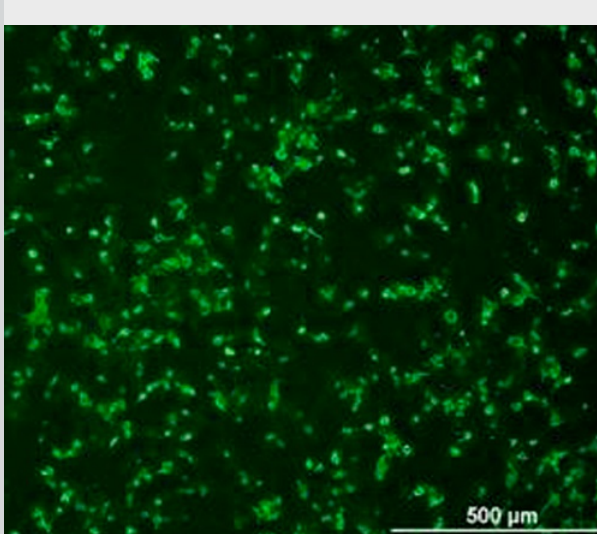

Mayo Clinic's Pediatric Fertility Preservation Program provides unique services to children with brain tumors. Neuro-oncologists determine when this option is appropriate to offer.

Research

Research identifies possible factors for misdiagnosis of autoimmune encephalitis

Mistaken diagnosis of autoimmune encephalitis occurs frequently and can lead to inappropriate treatment. A study led by Mayo Clinic offers guidance for correct diagnosis.

[Learn more](#)

Pediatric brain tumor research focuses on therapies and quality of life

Multidisciplinary teams are overcoming challenges and making discoveries in the laboratory and clinic. The efforts include finding new drugs and delivery methods and enhanced radiation protocols.
