Patient Care

By the numbers: Mayo Clinic Ophthalmology Podcast

The Mayo Clinic Ophthalmology Podcast covers the latest discoveries in ophthalmology through the lens of an academic institution. Expert guests from around the world discuss ophthalmology and various subsets of the specialty including optic neuritis, pediatric cataracts, physician well-being, and more.

Research

Study evaluates potential one-time treatment for wet AMD

Sophie J. Bakri, M.D., a Mayo Clinic ophthalmologist, performed the first subretinal gene therapy as part of a clinical study of RGX-314 as a potential one-time gene therapy for the treatment of wet age-related macular degeneration (wet AMD).
