

Trauma Professionals Update

May 2022

Paralyzed by an arrow, boy makes a comeback

Patient Care

A case for tourniquet use to save lives

An emergency medicine specialist discusses the role of tourniquets, tourniquet objections, a brief history of use, when to use tourniquets, improvised tourniquets and how to be prepared to use a tourniquet correctly.

What of the golden hour?

Though there's debate about whether the golden hour represents a literal 60 minutes, one thing is clear: Transporting patients to definitive care rapidly is crucial to decrease mortality and morbidity.
